Course Director Award for Project and Portfolio VII
- 2020 Master of Fine Arts**
MFA Creative Writing (Currently Pursuing)
Full Sail University

Work

- 2018 Mobile Applications Developer**
Developing and publishing Android and iOS applications.
- 2014 Thermodisc - Bihler Machine Operator**
Setup and operated Bihler machine. Quality assurance for machines output and production.

Projects

Crossfit WODs [GitHub](#) [Play Store](#)

Crossfit WODs is an app that lets the user see the current and past Crossfit Workouts as well as log their workout info for later reference. Uses Firebase data base for workout storage and user authentication.

Con Finder [GitHub](#) [Play Store](#)

Con Finder is an app that uses Firebase for storage and user authentication. Con Finder displays a sortable list of convention that are pulled from Firebase. The crowd sourcing feature in this app will allow the users to enter new cons into the database. This app makes use of camera/gallery, GPS, and Google maps as well.

Voice Recorder Plus [GitHub](#) [Play Store](#)

Voice Recorder Plus allows the users to record audio and save for later access. The user will be able to share clips via text, email and through social media.

ABOUT ME

Hard-working Software Engineer with a passion for new technologies. Creating applications for multiple platforms, managing and executing multiple tasks are just a few of my strengths.
